

## **ENGLISH LESSON**

### **TUESDAY**

1. Today we are going to revise numbers and counting. And we are going to start with the song 10 Little Dinosaurs.

<https://youtu.be/TjmGTbNLI6Q>

2. Then, please ask kids to count from 1 to 10 (younger kids), from 1 to 20 (Zabki, Zerowka). After that, ask kids to show some definite number of fingers.

3. Next, children are offered to work with worksheets.

Worksheet 1 - Let's count dinosaurs!! Look for each type of dinosaur and count the number in the picture. Find that dinosaur below, and write the number in the circle next to it. Younger kids might need help with that.

Worksheet 2 - Let's connect the dinosaurs. Find the big dinosaur on the left and draw a line to the hatching egg in the center. Now find the baby dinosaur on the right hand side and draw a line.

Worksheet 3 - How many triceratops do you see? Let's count! Now, find the correct number on the left hand side and circle it. Can you count all of the dinosaurs? For an extra challenge, have kids identify the different dinosaurs on the worksheet.
